

Newcastle City Council **Fees and Charges**

Financial Year 2017/18

Statement of fees and charges

Under Section 608 of the *Local Government Act 1993*, Council may charge and recover an approved fee for any service it provides, other than a service proposed or provided on an annual basis which is covered by an annual charge (Sections 496 and 501)

Services for which Council may charge a fee include:

- supply of services and products
- giving information
- providing a services in connection with the exercise of Council's regulatory function (e.g. Applications, inspections, certificates)
- allowing admission to buildings.

Fees and Charges made under Section 608 of the Act are classified according to the following pricing basis.

Full Cost Recovery (F)	Council recovers all direct and indirect costs of the service (including depreciation of assets employed).
Partial cost Recovery (P)	Council recovers less than the Full Cost. The reasons for this may include community service obligations and legislative limits
Statutory Requirements (S)	Price of the service is determined by Legislation
Market Pricing (M)	The price of the service is determined by examining alternative prices of surrounding service providers.
Zero Cost (Z)	Some services may be provided free of charge and the whole cost determined as a community service obligation
Rate of Return (R)	This would include Full Cost Recovery as defined above in addition to a profit margin to factor in a return to Council for assets employed. Council's policy for determining fees to be charged is that all Council fees and charges not subject to statutory control are to be reviewed on an annual basis, prior to finalisation of the annual operating budget

In applying the above pricing basis to fees made under Section 608 of the Act, Council considers the following factors as outlined in Section 610D of the Act:

- The cost to the Council of providing the service – the Full Cost Recovery method is used as a benchmark in this instance. This includes any debt and servicing costs, depreciation and maintenance associated with the provision of the service.
- The price suggested for that service by a relevant industry body or in a schedule of charges published, from time to time by the Division of Local Government.
- The importance of the service to the community – this is considered in determining any potential community service obligations or community benefit particularly under a Partial Cost Recovery or Zero Cost method.
- Any factors specified in the Local Government (General) Regulation 2005 or other applicable legislation.
- Other factors not specifically mentioned under Section 610D of the Act that may also be considered include:
 - If services are being supplied on a commercial basis as part of a defined Council business
 - The capacity of the user to pay
 - Market prices

All fees and charges not included in the Division 81 GST free schedule will attract the GST at the current rate of 10%.

Established categories for reduction or waiving of fees

Section 610E of the Local Government Act 1993 allows Council to waive payment of, or reduce a fee in a particular case if it is satisfied that the case falls within a category of hardship or any other category that Council has determined

Council has determined that fees may be waived or reduced in the following categories:

<p>Category one – financial hardship</p>	<p>Council may reduce or waive fees in cases where the applicant provides evidence that the payment of the fee will impose significant financial hardship.</p> <p>In determining eligibility on the basis of significant hardship, Council will:</p> <ol style="list-style-type: none"> 1. Apply the criteria used by the Department of Human Services (Centrelink); and 2. Require the applicant to provide reasonable proof of financial hardship which may include details of assets, income and living expenses, and such other information required to make a valid assessment
<p>Category two - charity</p>	<p>Council may reduce or waive fees in where the applicant is a registered charity and the fee is for a service that will enable the provision of charitable services to Newcastle City Council's community</p>
<p>Category three – illness or death (library overdue charges and pool season passes/tickets only)</p>	<p>Council may reduce or waive fees in cases where the applicant provides evidence that the charge was incurred because of:</p> <ol style="list-style-type: none"> 1. Serious illness of a customer or the customer's immediate family member; 2. Serious accident involving the customer or the customer's immediate family member; 3. Death of a customer or the customer's immediate family member; and <p>In determining eligibility on the basis of illness or death, Council will require the customer to present:</p> <ol style="list-style-type: none"> 1. Medical certificate; or 2. Statutory declaration.

Application and assessment

For the waiving or reduction of fees, applicants must apply to Council in writing (using Council's standard form).

Council Officers with delegated authority will assess and make determinations on requests for the waiver or reduction of fees in accordance with the following principles:

- Compliance with relevant legislation
- Fairness, consistency and equity
- Transparency
