

PARK SAFE, PLAY SAFE

Council parking officers patrol roads and Council operated parks, reserves and sporting grounds within the Newcastle Local Government area.

Council's focus is on safety and it encourages all members of the community when parking at parks and sporting venues to do so in a safe manner and adhere to the parking requirements.

Things to Remember

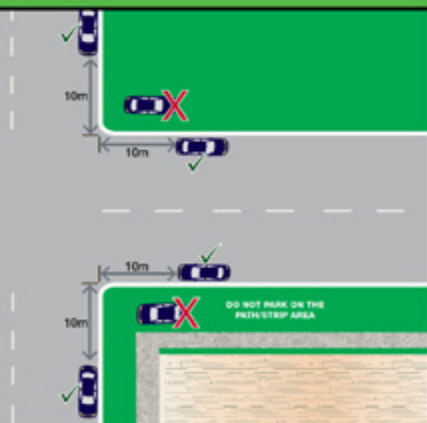

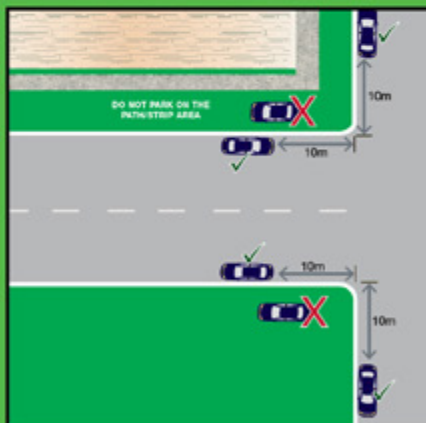

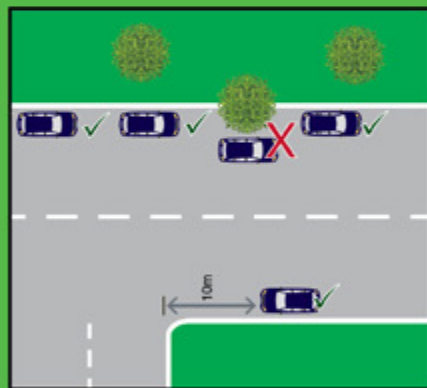

Do not park in areas or in a manner which impacts on the amenity and safety of others such as:

- in areas where a statutory sign is located which prohibits parking;
- on public reserves, nature strips, community land, footpaths and on/across driveways;
- not double parking while picking up or setting down passengers.

Council Encourages Drivers to:

- allow 10 metres between your vehicle and an intersection without traffic lights and 20 metres from an intersection with traffic lights.
- pay for parking where payment is required by the kerbside signposting.
- park as close as practical to the left on a 2 way street.
- set down and pick up passengers only in areas signposted as a No Parking zone. No Parking zones require the driver to park for 2 minutes and to remain within 3 meters of the vehicle.
