## Part B: Construction waste, reuse, recycling and disposal details

3.	Will your	
	development	
	generate any	
	construction waste?	

Will your proposal involve demolition, vegetation removal or other site clearing works or other activity which will generate the need for reuse & recycling or disposal of waste during the developments construction?

No  $\Box$  proceed to 5 in Part C.

Yes please provide details in accordance with 4 below:

Type of material onsite	_		Reuse & recycling methods:	Disposal methods:	
List type of general waste material eg. timber off-cuts, vegetation tiles concrete bricks etc.	Estimated Quantities		Specify reuse or recycling methods or contractor eg. crushed and reused, reused as	Specify contractor and landfill site (If known). e.g. Smith to any town tip,	
	Vol (m <sup>3</sup> )	Wt (kg)	flooring, mulched etc.	Alkene Asbestos to A place Steptoe & Son to Tip etc.	
Please attach additional sheets if more space is required.					

## Part C: Ongoing waste management details (after construction)

4. Will your development generate any waste	Will your development generate any ongoing waste as a result of its proposed use such as food waste, glass, paper, metal off-cuts etc?			
as a result of its	No		proceed to 9 in Part E.	
proposed use?	Yes		please provide details in accordance with 6 below:	

Expected waste		Proposed onsite storage and treatment facilities: (refer to DCP Section 7.08)	Destination:		
Detail the types of operating waste expected to be generated by the development eg. food waste, glass, paper, metal off-cuts etc.	Vol./ week L or m <sup>3</sup>	Eg. Waste cupboard waste storage & recycling area, garbage chute, onsite composting compaction equipment.	Eg. Recycling, disposal or contractor.		
Please attach additional sheets if more space is required.					
5. Ongoing management	Management Commitments				
commitments (multi- unit, commercial &					
industrial buildings only)					
Provide details of					
ongoing waste management					
commitments onsite (eg. lease conditions,					

caretaker/site manager). Please attach additional sheets if more space is required.

Part D: Estimates (if you answered yes at either 3 or 5 above)					
6. Estimated quantities If you answered yes to either 3 or 5 above please provide details of how you arrived at your estimated quantities.	<ul> <li>Please indicate the method used for predicting your development's anticipated levels of waste:</li> <li>Best guess</li> <li>Calculated assessment</li> <li>Industry data</li> <li>Waste Planning Guide for Development Applications</li> <li>Other</li> </ul>				
Part E: Checklist					
	<b>7.</b> Have you indicated the location of Waste Management Yes				
8. Where necessary, hav administrative arrange	Yes				
administrative arrangements for ongoing waste management? Not relevant					
9. Is easy access to the recycling area, room or facilities for Yes					
occupants and collection services provided?					
<b>10.</b> Is a sufficiently sized waste collection area provided? Yes					
	Not relevant				
11. Is an unobstructed vehicular access and manoeuvring area Yes					
provided for waste collection for commercial/ industrial and multi-unit development?					
<b>12.</b> Do the development plans for construction/demolition show details of onsite storage space or waste container for the recycling and disposal of construction waste?					

Part F:	Sigr	natures				
the DCP. The d for minimising and demonstrating la readily accessib		the DCP. The of for minimising a demonstrating la readily accessib	evelopment achieves the waste objectives set out in details on this form are the provisions and intentions and managing waste related to this project. All records awful disposal of waste will be retained and kept ole for inspection by regulatory authorities such as or WorkCover NSW.
