Why we do the quarterly performance report

It is a report to our community on our performance against our Delivery Program strategies.

CN is required under the Local Government Act s404(5) to provide progress reports on the Delivery Program and Operational Plan at least every six months. Our quarterly performance report details CN's progress on the principal activities detailed in the Delivery Program.

Reporting on our performance

The quarterly performance reports, along with the six-monthly performance report and annual report are the key points of accountability between CN and our community.

It is not a report to the Office of Local Government or the NSW Government, it is a report to our community on our performance against our Delivery Program strategies.

Every three months, CN reports on the key activities it has undertaken which contribute to achieving our Delivery Program and in the long term our Community Strategic Plan (CSP), Newcastle 2030.

What we did

CN drives towards electric future

CN's transition to a zero emissions fleet is powering forward with the unveiling of its first electric truck.

The medium rigid Hino truck is the only one of its kind in Newcastle and will replace a diesel vehicle currently being used by CN's Parks and Recreation team, reducing CN's carbon emissions by more than 20 tonnes each year.

The launch of the electric truck follows previous trials of electric vehicles within CN's fleet, including the replacement of four pool cars with equivalent full electric passenger vehicles.

CN will be participating in the NSW Government's recently announced Drive Electric NSW EV fleets incentive, which will help support the transition of its passenger fleet.

Newcastle Art Gallery expansion

Newcastle Art Gallery held a special public viewing before closing its doors for two years to allow its long-awaited \$40 million expansion to occur.

CN received the certainty needed to progress with the expansion following a \$10 million grant from the Federal and NSW Governments.

An experienced Fine Art Handler will help relocate the collection into secure, temperature-controlled storage to ensure the protection and preservation of the valuable works during the expansion project.

Moving the collection will be completed in parallel with external early works, including the relocation of telecommunication assets from the site and mine void remediation, which will ensure the Gallery is vacant and ready for the main construction work to begin mid-year. The project is expected to be completed by mid-2024.

NewSkills program

A new small business incubator program offered 15 Novocastrians the chance to take their business ideas to the next level.

Delivered as part of CN's NewSkills training program, the intensive 12-week Side Hustle Bootcamp will provide entrepreneurs with the opportunity to gain and develop their ideas into a viable business.

Many well-known and loved local businesses started out as side hustles including Cocoa Nib, Savant Apothecary and Eat Your Water, going on to become much-loved brands locally and nationally.

CN delivered a similar program under NewSkills in 2021. The highly successful Product Development Mentoring Program provided Newcastle businesses with training and mentoring to develop new tourism products, to help sustain and grow the city's visitor economy.

Community invited to comment on ambitious shared vision for Newcastle

Newcastle will be a liveable, sustainable and inclusive global city in 2040 under an ambitious long-term vision developed with the community.

CN engaged with more than 5,440 people during the development of the Community Strategic Plan, Newcastle 2040.

The plan's four key themes are: Liveable Newcastle, Sustainable Newcastle, Creative Newcastle and Achieving Together – each of which have been expanded to include a range of priorities and objectives.

The community were invited to provide feedback on the draft plan after Councillors voted to place it on public exhibition for 28 days.

New plan sets challenge for Newcastle to be an inclusive and accessible city

CN has adopted a bold plan to achieve the community's vision expressed in the Newcastle 2040 plan, of a liveable, sustainable, **inclusive** global city for all.

The Disability Inclusion Action Plan 2022-2026 (DIAP) was unanimously adopted by the elected Council in February.

Actions and strategies presented in the DIAP 2022-2026 are categorised within four focus areas – developing positive community attitudes and behaviours; creating liveable communities; supporting access to meaningful employment and improving access to mainstream services through better systems and processes.

Among the 35 key actions to be carried out under the DIAP is a commitment to leading by example with public programming.

Technology makes Lambton Library more accessible

The humble library card has been transformed into an after-hours key allowing access to Lambton Library for the city's more than 100,000 library members.

Using technology that has only just arrived in Australia, Lambton Library has become the city's first to offer library members access seven days a week even when their visit is outside of staffed hours.

The Library re-opened to the public in March following an extensive renovation that has delivered modern and accessible facilities while also returning the building's original heritage character to the front façade.

The OPEN+ technology will enable members to use their library membership number and barcode to access Lambton Library and an onsite CCTV system

will maintain the safety of patrons during accessible hours. In addition, a library staff member will be onsite Mondays, Tuesdays and Fridays between 2pm and 4pm to assist members and manage the collection.

During the closure period, CN also completed a restoration of the library's front façade and entrance to the building including reinstatement of the original bullnose verandah and heritage details.

New basketball courts unveiled as multimillion dollar investment in National Park continues

More than \$10 million is being invested into facility upgrades at Newcastle's largest recreational reserve, with four new basketball courts the latest project to be completed at National Park.

Work began in December to upgrade the 30 competition netball courts at National Park as part of a project being funded by Newcastle Netball Association and delivered with support from CN.

National Park is one of Newcastle's largest and oldest sportsgrounds and open space reserves, covering over 20 hectares and is currently home to a range of community facilities, parklands and sportsgrounds.

Integrated and Accessible Transport

Transport networks and services will be well connected and convenient. Walking, cycling and public transport will be viable options for the majority of our trips.
