23/05/2023	Ordinary Council Meeting	Lord Mayor, Nelmes	10.3 - Tender Report – Management of Inland Swimming Centres – Contract No. 2022/137T	<p>She stated that she would be making the same declaration as she had a week earlier during the Council public briefing. She said that in accordance with the Code of Conduct, she would be managing that conflict by leaving the meeting and not participating in the deliberations of that matter. She would however be participating in the discussion of the 20 year Inland Pools Strategy to ensure CN's commitment to the protection and enhancement of these vital public assets is delivered. She said she didn't declare her conflict lightly and had considered her position thoroughly. Having consulted the Code of Conduct, accompanying ICAC Guidelines on Lobbying Local Government Officials, and having sought legal advice, she felt she was left with no option but to recuse herself from the discussion. She said that she did this on the basis that on multiple occasions since last year she has been instructed privately and publicly how to vote on the tender by a more senior local politician. This instruction was made without any understanding of the potential impacts on other services operated by the City, or the costs to ratepayers. She said that ultimately, this senior politician had sought to create a predetermined outcome to the tender. Notably this same politician also a former Councillor, was part of a council that tried to close Mayfield Pool and a failed strategy that deliberately reduced the funding of CN's local pools, that allowed a previous conservative council to then try and close Beresfield Pool. She said that she fought hard to protect these community owned pools and kept them both open and accessible and that commitment remained. She said that bullying tactics had been relentless, included attempting to ban her from meetings with other elected members, speaking at local meetings in response to motions on the operation of local pools, and forcing the Deputy Lord Mayor to leave a room while motions naming him and her, about Council owned pools, were debated. She said that some of her colleagues had been threatened, in tears and verbally abused via phone. She noted that until tonight, no report has come to Council for consideration regarding the operation of pools. She said that due to this conduct, in the media, direct phone calls to Councillors, and even a statement under Parliamentary Privilege, a perception had been created that her vote on Pool Operations had been predetermined. She said that she has sought the appropriate advice to manage this conflict. Given the nature of the declaration, she was required to leave the chamber when Item 10.3 was discussed and cannot lawfully participate in this decision.</p> <p>She said that she was extremely disappointed that she had been put in such a position but that she would not compromise on the high standards of probity and good governance that ratepayers expect. Council passed a resolution in accordance with Clause 5.12 of City of Newcastle's Code of Conduct for Councillors, enabling Councillor Nelmes to remain in the chamber for item 10.3. The resolution resulted from an alternate recommendation from the Executive Director Corporate Services enabling the tender decision to be delegated to the Chief Executive Officer due to Council being inquorate.</p>
